It was the clause which the government had amended and which the Liberals objected.

Robt. Craigmiles, moved to amend the clause which gave the railway commission power to interfere with the car distribution, declaring that it would put the farmers back where they were ten years ago. The vote stood 59 to 47 against the amendment. All the Liberals voted for it and W. H. Sharpe, Conservative, and P. L. Schaffner, Conservative, voted for the amendment to the Grain Act.

J. M. Hughes, Strathcona, moved to provide for a sample market at Winnipeg and other other points as the board may decide. He said there was an immediate demand for a sample market at Winnipeg only. He added to the amendment to leave out the mixing provision. Government, control of elevators was the only possible remedy for mixing and the half-breed policy of the present bill was lost on division.

Dec. E. McCreary, Saskatchewan, proposed an amendment allowing mixing in elevators controlled by the board of trade. The amendment was lost on division. The amendment was lost on division.

W. E. Kayles, Moose Jaw, moved an amendment to prevent completely those owning terminal elevators from having any direct or indirect influence in the buying grain. Hon. Frank Oliver, Edmonton, moved to strike out the clause giving the board power to levy taxation and make expenditures without consulting parliament. He pointed out that this was unconstitutional. This was lost on division.

S. L. Macdonald, moved a motion of no confidence in the government. He said that the most important particular to safeguard the farmers' interests. It was lost on division. It was lost on division.

REBELS DYNAMITE BANK.

Scize \$17,000 and Burn Up Securities at Juarez.

El Paso, Tex., Mar. 12.—Dynamiting the vault of the National Bank of Juarez, Mexican rebel soldiers today seized \$17,000 and burned thousands of dollars of negotiable securities. The bank is owned by the Terraza and Creel interests. Only yesterday \$18,000 in currency belonging to the Mexican government was removed on \$100,000 in gold.

The rebels apparently believed this money was still there.

All soldiers in Juarez were ordered today to close for an indefinite period. With a plentiful supply of police and all control over their troops. It was feared that the soldiers might inaugurate a feeling campaign as a result of the order.

Refugees here today report that 1,500 federal troops are enroute to Juarez from Hermosillo to give battle to the rebel force. General Ynes Baker left 1,500 rebel troops in Juarez to defend the city before going to Ciudad Chihuahua, where the main body of his army joined General Giron's forces. As the rebel troops appear to be demoralized, it is not believed here that the federal will experience much difficulty in reaching the city.

General Juarez, at the head of 500 men, is marching on Juarez. A force of federal troops are already there. It is expected that the rebels will decide the fate of Mexico. If the rebels win, General Giron will attack Mexico City.

Chief clerks and superintendents get a salary increase of \$100 till \$2,000 and by reaching the increase will be on a basis of merit. This has been passed by the postal officers. Hon. Mr. Pelletier stated that the bill is necessary by the fact that it is impossible to hold employees on the present salaries.

A. Macdonald, the National member for Yorkton. The French-Canadian Liberals were in charge this morning in regard to the matter, and it is possible that many of them, and by Mr. Molloy, the Irish Catholic representative of Fredericton, will vote for Mr. Macdonald's amendment. ROOMING HOUSES ARE FULL TO OVERFLOWING

Increasing Settlers Have Difficulty in Finding Places to Sleep—Many Women and Girls Among Room-Seekers. Who are in Awkward Predicament.

Edmonton hotels and rooming houses are, taxed to their full capacity to accommodate all of the recent arrivals here. In fact the steady influx of people, coming from the district has reached the point where rooms are already at a premium, and the problem of finding for them, becoming more difficult to solve each day. Many incoming trains add to the great number of those who would enjoy the hospitality of this growing, thriving metropolis. They are apparently coming from every quarter of the globe.

While strenuous efforts are being made to find accommodations for all, the situation is particularly trying in the case of women, some of whom come with members of the household in the perplexing predicament of finding a place to sleep. Not a few of the women, and even girls, are looking for employment, although they are, they are becoming little trouble in that respect. The commissioners of the city, upon receiving a communication from the city clerk, Mr. Thompson, asking that the city make a substantial list to assist in carrying on their work. The aid seeks to befriend women in search of work and urge that it would be of advantage to maintain an employment register. Representatives of the Aid meet incoming trains and direct new arrivals to different parts of the city.

100 MILES STEEL DUNVEGAN LINE.

Premier Sifton Returns From Interviewing Railway Officials in East.

What was the outcome of those interviews? Mr. Sifton was asked. The results were very satisfactory," he replied. "I think I shall be safe in saying that at least 600 miles of steel will be laid to the province this year. The assurance I have received amply justify the promises made in the Legislature when the railway policy was under discussion."

Dunvegan Line.
Mr. Sifton said the construction would be spread over the various lines which had received guarantees. Speaking of the work to be done by the Dunvegan line, Mr. Sifton said the line was to be pushed forward with all possible speed and the promoters hoped to be able to complete this year the laying of the steel as far as the Athabasca river, a distance of over 100 miles from Edmonton.

The towns of Dunvegan has been on the market for three weeks and about half has been sold. Land is selling from \$20 to \$40; one-third cash, balance 6, 12, 18 months at seven per cent. Sifton and Jay, at 450 First street, are the sole agents for the property.

MILLION FOR MANITOBA LEAGUE ASK ASSISTANCE

Large Deputation Waits Upon Premier
Robinson—President Sanford Ex-
amines the Objects and Aims
of the Organization.

Winnipeg, March 12.—A large deputation representing the "Million for Manitoba" league, waited upon Premier Robinson this morning, asking for Government assistance in connection with the proposed plans of the organization.

Stanford Evans, president of the organization, in laying the views of that body before the Premier, stated that the work was progressing with satisfactory, and that to date 26 out of 35 districts had been fully organized, and that others were rapidly rounding into shape. The work in Winnipeg being delayed on account of the non-arrival of the membership list.

The deputation asked that the Government put up a dollar for every dollar raised by the association, or members of the deputation who spoke were Mayor Walsh, Vice President of the Winnipeg Board and R. A. Mott, Chairman of the Board.

Premier Robinson, in reply, stated that he was familiar with the general principles of the organization and was anxious to hear of the progress that had been made. The Government was prepared to take the share of the work, but he would not like to write an official letter to the Government, showing just what plan they intended to follow, and just how the money raised would be expended.

CHURCH UNION CONTOVERSEY

(By a Layman)

Church union is not a question for the committee to be the mind of the writer who as serious a question for the layman to give careful thought to, as it is for a council of ministers to consider it. It is a question of the church's doctrine. This must be true if the church is to be a spiritual interpretation of scripture to remain a condition which can only be established and strengthened by the sincere work of the Holy Spirit on the individual conscience.

It should be the duty of every true believer during the present crisis to oppose any constitutional changes in the doctrine of his church which would tend to weaken the spiritual power of his church. Whether the proposed changes are directly or only partly applicable to the needs of the church is not a question, as our faith is not a question of expediency. It is a question of principle. It is a question of the church's doctrine. It is a question of the church's doctrine. It is a question of the church's doctrine.

My reason for casting my ballot in the present controversy was that, under the circumstances, my only means of defence lay in the word "No." Had I thought it my duty to consider the other side of the question, I would have abstained from voting altogether. If the Westminster Assembly of Faith had not been all it should have been to the Presbyterian Church, during all these years of our shared spiritual existence, and if we find our voice in an uncertain composite of voices readily available to us daily, it is not to the church of Christ, but to the Pharisees.

To do so to the church of my readers will brand me as an uncharitable Christian, to all of which I am willing to submit. If I have charged and branded ones of the up-to-date Christians with the crime of Christ, and have been for the Protestant Church now to be, it was before the Reformation. It was before the Reformation. It was before the Reformation. It was before the Reformation. It was before the Reformation.
